Dear Ms. Brown:

I have reviewed the letter of April 30, 2004 which you sent to Alan Smith of BBS Corporation (copy attached). Neither the Board of Commissioners or I promised an independent meeting between MCA and BBS. In order to make that offer we would need to provide equal opportunity to any other stakeholder in the process. This is the reason for the May 13, 2004 workshop.

The County did agree to forward your concerns to BBS and ask them to review prior correspondence including the alternate sites proposed by MCA. If you wish to share additional information, we would be happy to forward it to our consultant.

I look forward to seeing you or a representative of MCA on May 13th.

Sincerely,

THOMAS C. YEAGER
Director of Utilities

Dear Mr. Smith,

Thank you for allowing me the opportunity for input in the selection of the facilitator for the May 13 workshop. The officers of MCA believe that the facilitator would be better equipped if he or she had more technical engineering background.

We will however work within the parameters given. We have reviewed the three resumes you sent. On that basis, we feel most comfortable in using an independent and therefore would prefer that you employ Barbara Hoyt of Falcoln Dynamics.

As discussed, MCA would also like to pursue the opportunity for an independent meeting with the representatives from BBS, as promised by Tom Yeager and the Clermont County Commissioners. This will allow more opportunity to present our concerns and input, in a less constrained format.

Thank you for following up on that meeting. I look forward to hearing from you soon.

Best regards,

Marie A. Brown
